Data Analyst Take Home

Thank you for taking the next step in the interview process with us at Integris! We are looking forward to seeing some of your work and thought process first hand, and hope that you enjoy this exercise. A couple of things to note:

1) Please do not spend more than 90 minutes on this exercise. If you find that you have hit the 90-minute mark, please stop working and send us what you have.

2) Please send your work product and files back to us directly and please DO NOT PUBLISH your work to GitHub directly. This helps us ensure that no one else who might be working on this as part of our interview process, or just for fun, can see how you've handled the exercise.

3) This exercise will come up again in our interview process, should you move forward. It will be discussed either in a phone interview, or in your onsite interview session.

Should you have any questions about this exercise, please reach out to us directly - we are always happy to help.

Have some fun with this! We are excited to see what you come up with.

Cheers!
